From the picture perfect street appeal, you will enter into a large carpeted formal lounge, that then leads perfectly through to main heart of the home. There, you will find the fresh and clean kitchen, that has also been recently renovated, and with its central location, is the hub of the home. This stunning kitchen features large spacious bench tops, that double as a convenient breakfast bar, along with modern appliances, plenty of cupboard space, and an outlook over the family living and meals area, and right through the outdoor entertaining area and rear yard.
